RISHU RAJ

Software Engineer

Hard Skill

1. Programming Languages
 - C, C++
 - Java
 - JavaScript
2. Web Development
 - HTML, CSS, JavaScript
 - React.js
 - Express.js
 - Tailwind CSS
3. Database Management
 - MongoDB
 - Firebase

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking
- problem solving
- critical thinking

Education Background

- 10th from Dav Public School , cantt area
gaya Bihar
Completed in 2020
- 12th from Mirza galib collage , Gaya Bihar
Completed in 2022
- Dronacharya group of insitution , GN
*Bachleor in Computer Science and
information technology*
Completed in 2026

About Me

Pre-Final year B.Tech Student in Computer science and Information Technology with hands-on experience in building web applications and software projects. Proficient in HTML, CSS, JavaScript, and React.js, with a passion for creating innovative solutions to complex problems. Seeking opportunities to bring my technical skills and collaborative mindset to a forward-thinking software development team.

Project Experience

E-commerce Website Clone (Tesla Frontend Clone)

- Developed a clone of Tesla's website with responsive design and interactive user interface.
- Technologies: React.js, Vite, Tailwind CSS
 - Objective: To replicate the front-end of the Tesla website with a responsive layout and modern UI elements, including a Cybertruck reservation page.
 - Responsibilities: Built the navigation, homepage, and Cybertruck page with fixed images and scrollable content using React.js and Tailwind CSS. Implemented hover effects to highlight menu items.
 - Key Achievements: Delivered a pixel-perfect Tesla clone with a smooth user interface, contributing to better portfolio presentation. Implemented a responsive layout that worked seamlessly on mobile and desktop.
 - Skills Gained: Tailwind CSS, Responsive Web Design, JavaScript, UX/UI Development

Swiggy Frontend Clone

- Developed a clone of Swiggy's food delivery website with responsive design and API integration for dynamic content.
- Technologies: React.js, Vite, Tailwind CSS, REST API
 - Objective: To replicate the front-end of Swiggy's website with a responsive layout, dynamic menu content, and an API-driven ordering system.
 - Responsibilities: Built the navigation, homepage, and restaurant listing pages using React.js and Tailwind CSS. Integrated Swiggy's API to dynamically fetch restaurant data and menu items. Implemented search functionality and hover effects for interactive user experience.
 - Key Achievements: Delivered a fully functional Swiggy clone with real-time data from the API, enhancing the user experience. The responsive design ensured seamless performance across devices.
 - Skills Gained: API Integration, React.js, Tailwind CSS, Responsive Web Design, JavaScript, UX/UI Development
