EDUCATION

Dronacharya Group of Institutions

Bachelor of Technology in Computer Science and Information Technology

Greater Noida, UP

Aug. 2022 – June 2026

PROJECTS

BackendHub -Ready-to-Use Backend Projects! | Live [↗](#) | GitHub [↗](#)

Jan 2025

- Developed BackendHub, a platform enabling frontend developers to access ready-to-use backend projects for seamless UI development.
- Designed a system where backend developers can upload projects, including source code and GitHub repositories, while frontend developers can easily download them.
- Built the backend using **Express.js** and **Prisma**, ensuring efficient data management and performance.
- Implemented authentication with **JWT and Cookies** for secure access.
- Created a responsive frontend with **React** and **Tailwind CSS**, ensuring a smooth user experience.
- Managed state efficiently using **Zustand** for optimal application performance.
- Facilitated collaboration between frontend and backend developers, fostering a strong development community.

Full-Stack E-Commerce Website - Seamless Shopping Experience | Live [↗](#) | GitHub [↗](#) **Nov 2024**

- Developed a fully functional **e-commerce platform** using the **MERN stack** (MongoDB, Express.js, React.js, and Node.js).
- Built a **responsive frontend** using **React.js** for a dynamic user experience.
- Developed a **robust backend** with **Express.js and Node.js**, integrating **MongoDB** to manage user and product data.
- Implemented **JWT authentication** for secure user sessions, including sign-up and login with phone number and password.
- Deployed the **frontend on Vercel** and the **backend on Render** for scalability and performance.
- Enabled **profile management**, allowing users to update their profile and change passwords securely.
- Implemented **shopping features** including cart management, order placement, and order tracking.
- Developed an **interactive review system** where users can write, update, and delete reviews.
- Facilitated seamless **cart management** with add, update, and delete functionalities.

TECHNICAL SKILLS

Skills: Full-Stack Development, Data Structures & Algorithms, OOPs, DBMS, Operating Systems

Languages: JavaScript, TypeScript, C++, Python/java

Technologies/Frameworks: HTML5, CSS3, React.js, MongoDB, PostgreSQL, Prisma ORM, Express.js, Zustand, Tailwind CSS

Developer Tools: Git, GitHub, JWT, VS Code

Certifications

- **Cisco Cybersecurity Essentials** (2024)
- **Postman Student Expert** (2024)
- **Cisco JavaScript Essentials 1** (2024)
- **Cisco Networking Basics** (2025)

ACHIEVEMENTS

- * Solved 200+ DSA questions across various platforms
- * Currently Institute Rank 40 in problem-solving on GeeksforGeeks
- * Participated in 10+ hackathons
